

5 Courses

07/13/2020

Rutik Pradeep Pol

has successfully completed the online, non-credit Specialization

Applied Data Science with Python

The 5 courses in this University of Michigan specialization introduce learners to data science through the python programming language. This skills-based specialization is intended for learners who have a basic python or programming background, and want to apply statistical, machine learning, information visualization, and text analysis techniques to gain new insight into their data. In the final course, students will work on real-world data analysis projects, building a portfolio which showcases their work while at the same time helping real clients gain a better understanding of their data.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

A handwritten signature in black ink, appearing to read "Christopher Brooks".

Christopher Brooks
Research Assistant
Professor
School of Information

A handwritten signature in black ink, appearing to read "Kevyn Collins-Thompson".

Kevyn Collins-Thompson
Associate Professor
School of Information

A handwritten signature in black ink, appearing to read "Daniel Romero, Ph.D.". Below the signature is a smaller, illegible signature.

Daniel Romero, Ph.D.
Assistant Professor
School of Information
University of Michigan

A handwritten signature in black ink, appearing to read "V. G. Vinod Vydiswaran".

V. G. Vinod Vydiswaran
Assistant Professor
School of Information
